

Yuki Kimura(雪木村)

FullStack Developer

Osaka, Japan

With 10+ years software development experience, I have contributed to projects small and large, demonstrating my professionalism with unmatched quality and reliability. Being a professional developer means understanding all the requirements of a project and finding the best way to implement it to a high-quality standard. As a senior full-stack engineer, I am proficient with modern web languages and I always focus on project structures and coding style, and etc. Also I have great experience with cloud architect and when it comes to AWS and GCP, I'm considering myself one of the most qualified engineers.

Projects

Cloud computing web-portal and Dashboard

Genesis Cloud offers cloud computing at unbeatable cost efficiency.

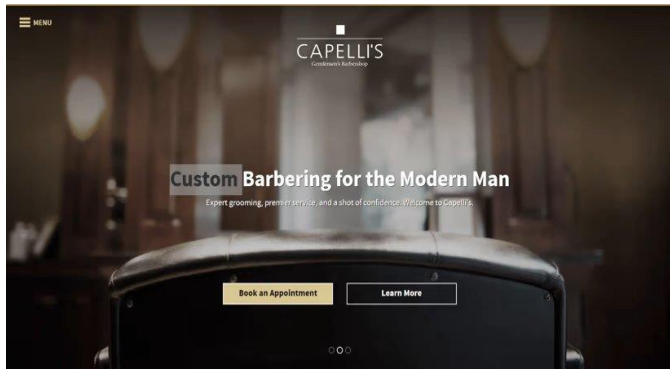

<https://www.genesiscloud.com/>

Django backend

Create or quote a translation job from a variety of service. The backend is capable of ending and receiving assets to an external Translation Management system which handles the actual translation.
