◆◆◆ Specializes in Front-End Development. ◆◆◆

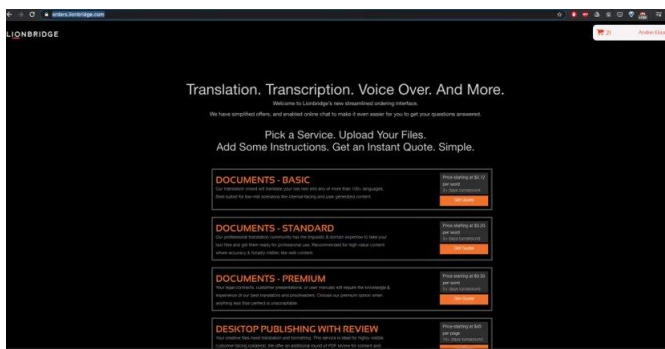

An expert Front End Developer having experience of 6+ years in working on fully responsive Landing Page / Multi Page website development for customers with great knowledge of website responsiveness.

In my work, I focus on the user and the key performance indicators (and KPI), this allows me to make a really useful design for users and the business.

Specializing in building Front End UI/UX, Web App, website pages, landing pages, Admin Panel, and blogs.

React is my essential skill so I am enough to do your project.

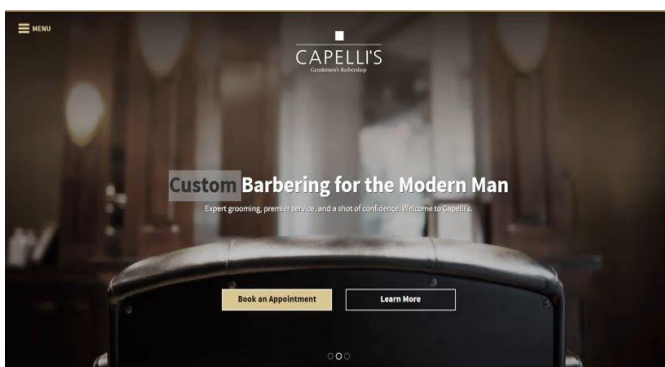

Projects

Translation Service Website (React + Restful API + Express)

Create or quote a translation job from a variety of service. The backend is capable of ending and receiving assets to an external Translation Management system which handles the actual translation.
