## 💎💎💎 Specializes in Front-End Development. 💎💎💎

An expert Front End Developer having experience of 6+ years in working on fully responsive Landing Page / Multi Page website development for customers with great knowledge of website responsiveness.

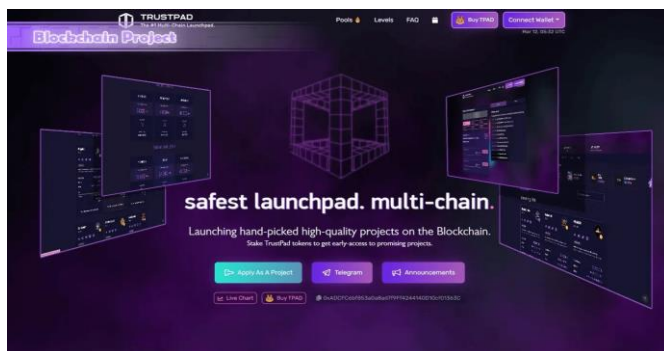

In my work, I focus on the user and the key performance indicators (and KPI), this allows me to make a really useful design for users and the business.

Specializing in building Front End UI/UX, Web App, website pages, landing pages, Admin Panel, and blogs.

Angular is my essential skill so I am enough to do your project.

## Projects

---

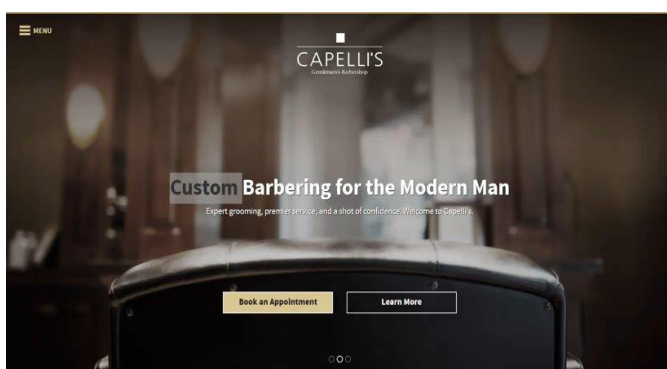

### Blockchain Platform (Angular + Web3.js + Solidity)

Built from scratch marketplace in Angular in four months.

- Design and build patterns of chains and mainly developed cross-chain by Web3.js
- Developed an analytics engine for the marketing team to help them understand the marketing ROI.
