mail:top.developer0221@gmail.com

With 10+ years software development experience, I have contributed to projects small and large, demonstrating my professionalism with unmatched quality and reliability. Being a professional developer means understanding all the requirements of a project and finding the best way to implement it to a high-quality standard. As a senior full-stack engineer, I am proficient with modern web languages and I always focus on project structures and coding style, and etc. Also I have great experience with cloud architect and when it comes to AWS and GCP, I'm considering myself one of the most qualified engineers.
